

Internships in Public Science Education

Paid internships are available for graduate students from diverse fields, including engineering, science, art, education, journalism, and humanities.

A great way to learn about exciting research advances in nanotechnology while "Exploring the Nanoworld" and working with Discovery World Museum and MRSEC personnel to develop museum exhibits!

Position: graduate student hourly position (10 hours per week at \$16.50/hour)

When: 2004-2005 academic year with the possibility of continuing into the summer

Where: University of Wisconsin-Madison and Discovery World Museum, Milwaukee
