

MRSEC Sponsored 2021 Spring Seminar Series

[Series Web Page](#)

Thursday, January 28
11:00 a.m. Central Time

MS&E Seminar: “Disruptive Technologies for High Performance Polymer Matrix Composites”

Presenter: Hilmar Koerner, Air Force Research Laboratory
Hosted by: Padma Gopalan, Materials Science & Engineering Department
Part of the [MS&E Seminar Series](#)

Tuesday, February 2
11:00 a.m. Central Time

Physical Chemistry Seminar: “Nanoscale Imaging of Electrochemical Energy Conversion and Storage Systems”

Presenter: Justin Sambur, Colorado State University
Hosted by: Marty Zanni, Chemistry Department
Seminar Link: <https://chem.wisc.edu/event/physical-chemistry-seminar-3/>

Thursday, February 18
12:05 p.m. Central Time

McElvain Lecture: “Origins of Atom Position, Stability, and Function in Metal and Metal-Like Nanoparticles”

Presenter: Jill Millstone, University of Pittsburgh
Hosted by: Bob Hamers, Chemistry Department
Seminar Link: <https://chem.wisc.edu/event/materials-chemistry-seminar/>

Thursday, March 18
4:00 p.m. Central Time

MS&E Seminar: Exploiting Soft X-Ray ARPES to Look Beyond the Surface in Correlated Electron Systems

Presenter: Jessica McChesney, Argonne National Lab
Hosted by: Jason Kawasaki, Materials Science & Engineering Department
Part of the [MS&E Seminar Series](#)

Thursday, April 1
4:00 p.m. Central Time

MS&E Seminar: “Relaxation is Everywhere”

Presenter: John Mauro, Penn State University
Hosted by: Paul Voyles, Materials Science & Engineering Department
Part of the [MS&E Seminar Series](#)

Tuesday, April 6
11:00 a.m. Central Time

Physical Chemistry Seminar: Title TBD

Presenter: Cathy Wong, University of Oregon
Hosted by: Marty Zanni, Chemistry Department
Seminar Link: <https://chem.wisc.edu/event/physical-chemistry-seminar-8/>

Thursday, April 15
4:00 p.m. Central Time

MS&E Seminar: Title TBD

Presenter: Ruth Schlitz, SageGlass
Hosted by: Mike Arnold, Materials Science & Engineering Department
Part of the [MS&E Seminar Series](#)
