[Series Web Page](#)

Thursday, September 9
4:00 p.m. Central Time
Room 265 MS&E Building

Materials Science & Engineering Seminar: "The Theory of Glasses: The Last Twenty Years (Mostly)"

Presenter: Peter Wolynes, Rice University
Hosted by: Paul Voyles, Materials Science & Engineering Department
Part of the [MS&E Seminar Series](#)

Tuesday, September 28
3:30 p.m. Central Time
Room 2120 Grainger Hall

Organic Chemistry Seminar: "Mechanism-Guided Discovery of Photocontrolled Materials and Reactions"

Presenter: Julia Kalow, Northwestern University
Hosted by: AJ Boydston, Chemistry Department
Seminar Link: <https://chem.wisc.edu/event/organic-seminar-prof-julia-kalow-northwestern/>

Tuesday, October 5
11:00 a.m. Central Time
Virtual via Zoom

Physical Chemistry Seminar: "Unearthing Single-Molecule Spectroscopy and Capturing the Dynamics of Extracellular Viruses"

Presenter: Kevin Welsher, Duke University
Hosted by: Randy Goldsmith, Chemistry Department
Seminar Link: <https://chem.wisc.edu/event/physical-seminar-prof-kevin-welsher-duke-university/>

Thursday, October 28
4:00 p.m. Central Time
Room 265 MS&E Building

Materials Science & Engineering Seminar: "Advancing Materials Design: Uniting Physics-Based Models with Crystal Chemistry"

Presenter: Nicole Benedek, Cornell University
Hosted by: Dane Morgan and Paul Evans
Part of the [MS&E Seminar Series](#)

Tuesday, November 2
11:00 a.m. Central Time
Bardeen Medical
Laboratories, Room 140

Physical Chemistry Seminar: "Title TBD"

Presenter: Michael Grunewald, University of Utah
Hosted by: JR Schmidt, Chemistry Department
